SUMMARY

Marketing analyst with 3+ years in food and consumer e-commerce. I turn campaign and customer data into clear weekly decisions on spend, channels and offers. Comfortable owning a metric end to end: from the SQL pull to the dashboard to the recommendation in the room.

EXPERIENCE

Marketing Analyst Jan 2023 - Present

Brightleaf Foods

- Built a weekly campaign performance report in Power BI covering 6 paid and owned channels, replacing 4 hours of manual spreadsheet work each week.
- Cut cost per acquisition by 18% over two quarters by reallocating budget from low-converting display placements to search and WhatsApp campaigns.
- Ran 14 A/B tests on email subject lines and landing pages; the winning variants lifted email click-through rate from 2.1% to 3.4%.
- Set up Google Analytics 4 event tracking for the online store, giving the team its first reliable view of cart-to-checkout drop-off.
- Wrote SQL queries to segment 120,000+ customers by purchase frequency, which shaped a loyalty offer that raised repeat purchases by 11%.

Junior Data Analyst Jul 2021 - Dec 2022

Kitekart

- Cleaned and reconciled weekly sales data from 3 sources in Excel, reducing reporting errors flagged by the finance team by 60%.
- Produced daily order and returns summaries for the operations head, used to adjust packing capacity during festival sales.
- Designed Canva-based one-page insight summaries that helped non-technical managers act on the numbers without a call.
- Supported a pricing review of 800+ products by pulling competitor price points and flagging items priced more than 10% above market.
